

**Managing the Cycles of Nitrogen and Phosphorus:
Mitigation and Adaptation**

22-25 October 2008

Co-Chairs: Rosamond Naylor, Pamela Matson, & Peter Vitousek

Participant Roster

Tim Crews

Professor

Prescott College

Department of Environmental Studies

Expertise: N & P biogeochemistry

Laurie Drinkwater

Associate Professor

Cornell University

Department of Horticulture

Expertise: Biochemistry of agrosystems

Elisabeth Holland

Senior Scientist

NCAR TIMES/ACD

Expertise: Biogeosciences

Luiz Martinelli

Professor

Universidade de São Paulo

Expertise: Biochemistry

Rosamond Naylor

William Wrigley Senior Fellow

Woods Institute for the Environment

Stanford University

Expertise: Food policy and agricultural economics

Dennis Ojima

Senior Scholar

Heinz Center for Science, Economics and the

Environment

Expertise: Ecosystem science

Cheryl Palm

Research Scientist

Columbia University, Earth Institute

Expertise: Soil Science and Climate

Pedro Sanchez

Director

Tropical, Agriculture & Rural

Environment Program

Columbia University, Earth Institute

Expertise: Soil Science

Alan Townsend

Professor

University of Colorado

Expertise: Biogeochemistry

Peter Vitousek

Professor

Stanford University

Dept. of Biological Sciences

Expertise: Biogeochemistry

CONFERENCE CONVENERS

John Katzenberger

Director

Aspen Global Change Institute

Expertise: Education, global
environmental change

Michelle Masone

Associate/Special Projects

Aspen Global Change Institute

Tatyana Stevens

Office/Program Manager

Aspen Global Change Institute

Lacey Gaechter

Session Assistant

Aspen Global Change Institute
