Assessing the Impacts of Engaged Research and Its Use Evidence and Opportunities

October 1-6, 2023

WELCOME!
Mission & Goals

Our mission is to advance global change science and solutions.

We do this by:

- furthering interdisciplinary understanding
- catalyzing science-informed action
- nurturing a community of solutions-seekers.

Ground Rules

- Share our time & space together. Actively listen, contribute, & learn!
- Ask for clarity – we’re all bringing unique perspectives, languages, and vocabularies.
- Disagreements should be respectfully shared.
- Practice self care.
- Find ways to support the work and ideas of others.
- Attribute and acknowledge the contributions of others.
- Hold confidences in this space; spread the learning far and wide!

Assessing the Impacts of Engaged Research and Its Use: Evidence and Opportunities

Oct 1st, 2023 - Oct 6th, 2023 | Airlie, Warrenton, VA

Overview

This workshop is co-hosted in partnership with the Transforming Evidence Funders Network (TEFN) to identify opportunities to advance the evidence base about the behavioral and societal changes associated with research processes that engage people with lived experience and evidence users (i.e., engaged research). Among other activities, participants will be asked to help identify the actions funders could take to build out and improve the use of evidence – specifically, evidence about the impacts of engaged research.
Logistics

- Wifi network: Airlie Meeting
  Pass key: Engaged2023
- Email presentation to workshops@agci.org the night before your presentation!
- Reimbursement
- Evaluation
- Code of Conduct

If you are aware of unacceptable behavior against yourself or others, please advocate immediately for help from AGCI staff or the appropriate authorities.

Emily Jack-Scott, ejs@agci.org, +1 267-242-0797
Devan Crane, dcrane@agci.org, +1 336-209-1157
Thank you for listening!
